

# Secure Your Country With Trusted Travel

## TRUSTED TRAVEL PACKS ALL IT TAKES TO SECURE A COUNTRY

Trusted Travel aims at digitizing, simplifying, and improving the security of port and travel screening activities, thus helping curb the spread of pandemics.

The suite is composed of advanced technologies to ensure robustness, speed in delivery and improved analytics in the port, travel and health security management of nation states and sub-national entities.

The Trusted Travel ecosystem gives governments and organisations access to a tightly woven network of platforms for health credential issuance; border risk management; digital public health surveillance; and lab, clinical & vaccination registries.

## JOINT THE NETWORK, SECURE YOUR COUNTRY

### Trusted By Many

Sign up to secure your country just as Ethiopia, Rwanda, Kenya and a dozen other major African destinations.

### Authenticity is valued

Stamp out fake health certificate and documents by connecting directly with hundreds of Trusted labs across Africa and thousands in the rest of the world.

### Stop the spread

Reliably check and confirm the status of 1000s of inbound and outbound travellers to protect your country from dangerous variants.

## Request to Sign Up in 3 Easy Steps to enjoy the Trusted Travel Advantage
